**BHIMBETKA:** Cave paintings dating back to approximately 30,000 years. Rock shelters that were home to humans, millennia ago. And a rich flora and fauna surrounding these, indeed, make Bhimbetka a gift to us from our earliest ancestors. The Bhimbetka Rock Shelter has the oldest-known rock art in India, as well as is one of the largest prehistoric complexes to be seen.

An archaeological treasure, Bhimbetka has around 243 rock shelters and have earned the honor of UNESCO World Heritage Site. The paintings found in the rock shelters here have a striking resemblance to the ones discovered in Kakadu National Park in Australia; to the cave paintings of Bushmen in Kalahari Desert and Upper Paleolithic Lascaux cave paintings in France.
